

Coach Brunkhorst's Newsletter – Algebra, 6th Math, & Health

ALL CLASSES: MAP Testing has started!

Algebra:

This week we are working on our Chapter Review & Study Guide for Chapter 8. Our test will tentatively be on Wednesday. Students can also retake the Chp. 8 Vocabulary Test this week. Once we are finished with Chapter 8, we will begin Chapter 9 "Quadratic Functions". We will not take our EOC until the 1st week of May.

6th Math:

This week we are working on a short unit over Statistics and Data Distribution. We will mainly be working on in class activities while keeping homework at a minimum for MAP testing. If students do not use their time wisely in class, then they may have classwork that becomes homework. 6th Grade MAP MATH testing is scheduled to begin on MONDAY, April 10th. There will be a 2nd day that we test to complete our sessions, but that date is TBA.

6th Health:

Before we went on Spring Break, the class watched the American Red Cross Safety Video. This video covers basic home safety, natural disaster preparedness, recreational safety, and accidents in public (basic first aid). This week we are working on a survey of physical fitness levels of the entire school. Small groups will be going to assigned grade levels to discuss what physical activity is, and to determine their levels of physical fitness by conducting a survey. The groups will then take their data and display it on a line plot (or dot plot), and analyze the school-wide results.

7th/8th Health:

7th & 8th grade will be watching the American Red Cross Safety Video and completing a video paper test. The video covers basic home safety, natural disaster preparedness, recreational safety, and accidents in public (basic first aid).

SPORTS:

Thursday – 1st Flag Football Practice after School

Friday – ATHLETIC DEPARTMENT TRIVIA NIGHT (Door opens at 5PM, Trivia begins at 6PM)
