Mrs. Patterson

This week in Science...

8th grade: We will be continuing chapter 12. This will be our last full chapter for the school year. We will also begin preparing for the end of the year tests. We will also be ending the year with some fun activities as well

7th grade: We will be finishing our end of the chapter project, which is a speech convincing the school we need to begin a program that would make our Earth and school a more Earth Friendly place.

6th grade: We will be finishing our chapter on Space Exploration. We will be exploring all the early missions as well as looking into future missions. The test will be on Friday this week. Study the mission names and the location in which it involved

Once again, if you ever have questions, comments or suggestions, feel free to call me at school or email and I will get back to you as soon as possible. Also, sign up for text alerts on my school webpage.

This week's agenda:

- Exploratory Science: speed calculations and STEM challenges
- Having fun!

Reminders to Parents

If you feel your student needs tutoring in any content area, let me know.

PLEASE LOOK FOR PLANNER NIGHTLY

Please contact me with any concerns or questions 😊
