This Week's Focus

6th Grade* This week we will be finishing Chapter 5 in the textbook. We will be reviewing calculations of speed and acceleration and Newton's Laws of Motion. Test will be on FRIDAY!

7th Grade* This week we will be finishing Chapter 6 in the textbook. We will be reviewing the effects of landforms on climate and the various climate zones and their characteristics. The Test for this chapter will be on FRIDAY!

8th Grade* This week we will be beginning chapter 7: Plate Tectonics. This chapter is always a lot of fun for me and hopefully for the students. There are various activities planned and labs to help us better understand the information.

Exp. Science*

6th and 7th: This week we will be discussing Mass and Conversions of the metric system.

8th: This week we will continue our weekly MAP Prep items and STEM challenges.
