

EVALUATION OF THE SUPERINTENDENT

The Board of Education will annually complete a summative evaluation of the superintendent's performance using an evaluation instrument reflecting the Essential Principles of Effective Evaluation as adopted by the Missouri State Board of Education. The primary purpose of the evaluation is to improve student performance by promoting the continuous growth of the superintendent in a manner that is aligned with the district's Comprehensive School Improvement Plan (CSIP). Results of the evaluation will inform employment and compensation decisions, but may not be the exclusive factor considered.

Evaluation Standards

The Board will measure performance based on the Missouri Superintendent Standards. In accordance with these standards, the superintendent demonstrates the knowledge and ability to ensure the success of all students by:

1. Facilitating the development, articulation, implementation and stewardship of a vision of learning that is shared and supported by the school community.
2. Promoting a positive school culture and an effective instructional program, applying best practices to student learning and designing professional growth plans for staff.
3. Leading personnel and managing the organizational structure and resources in a way that promotes a safe, efficient and effective learning environment.
4. Collaborating with families and other community members, responding to diverse community interests and needs and mobilizing community resources.
5. Acting with integrity and responsibility and in an ethical manner.
6. Understanding, responding to and influencing the larger political, social, economic, legal and cultural context.
7. Remaining current on best practices in education administration and school-related areas as evidenced by establishing a plan for his or her professional development each year.

Evaluation Process

Formative Evaluation

The Board and superintendent will meet regularly during the formative evaluation period to discuss the superintendent's progress toward established goals.

The superintendent and Board will jointly identify three to five areas of focus or quality indicators for the upcoming year's evaluation. This will be done within the first six weeks of employment for a new superintendent and at the end of the previous school year, or in conjunction with the previous year's summative evaluation, for a returning superintendent.

Chosen areas of focus or quality indicators must be aligned with the district's current CSIP. The areas of focus or quality indicators may be changed throughout the year as circumstances dictate.

At the request of the Board, the superintendent will regularly, but at least twice prior to the summative evaluation, report progress on all chosen areas of focus or quality indicators. The report will include specific evidence supporting the superintendent's progress.

After each report the Board will consider the evidence presented, may request additional evidence and will record the progress made on the formative evaluation form.

Summative Evaluation

The summative evaluation incorporates all the information accumulated through the formative evaluation process. It reflects the Board's final assessment of the superintendent's performance.

The Board will meet prior to the superintendent's summative evaluation. Each Board member will prepare an individual assessment of the superintendent's progress on the selected areas of focus or quality indicators and any other issues that arose during the formative evaluation process. During the meeting, members will reach a consensus regarding the superintendent's progress based on the individual evaluations contributed by each member. The Board president will create a consensus evaluation, provide a copy to each Board member and the superintendent, and then destroy the individual evaluations.

The superintendent and the Board will meet to discuss the results of the summative evaluation. The superintendent will be provided a copy of the evaluation and given the opportunity to respond in writing to any item on the evaluation.

Additional Evaluation Factors

Nothing in this evaluation process prevents the Board from addressing additional concerns related to the superintendent's performance as they arise throughout the year. Board members with concerns are required to share those concerns with the rest of the Board at the first opportunity. The Board will then determine whether the concern requires a modification to the selected areas of focus or quality indicators or whether a separate action is necessary or more appropriate.

Superintendent's Personnel File

The summative evaluation and any written responses by the superintendent will be maintained in the superintendent's permanent file in accordance with the state retention manual applicable to schools.
